Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Aims

Energies (ISSN 1996-1073) is an open access journal and publishes papers on scientific research, technology development, engineering policy, and management studies related to the general field of energy, from technological problems in energy supply, conversion, dispatch, and final use to the thermodynamics of the physical and chemical processes behind such technologies. Acceptable paper types are reviews, regular research papers, and communications. Our aim is to encourage scientists to publish their experimental, numerical, and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. Full experimental details must be provided so that results can be reproduced. For numerical simulations, an accurate description of methods and mesh sensitivity is mandatory.

Scope

- Energy and environment, sustainable transition
- Energy storage and applications
- Energy and buildings
- Electrical engineering
- Energy sources
- Energy conversion fundamentals
- Diagnostics and prognostics of energy conversion chains
- Chemical energy
- Energy economics and policy
- Energy use in industry

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2025 Impact Factor: 3.9

(*Journal Citation Reports* - Clarivate, 2026)

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Journal Rank

CiteScore - Q1 (Control and Optimization)

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases

Rapid Publication

A first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025)
